

# ConextPlay Starter Set (36359)

## Scope of delivery

Item number	Article description	Quantity
31864	ConextPlay Male Module warm white LED 2,5x2,5cm 5V	20
31869	ConextPlay Female Module warm white LED 2,5x2,5cm 5V	10
31873	ConextPlay Power Supply Module warm white LED 2,5x2,5cm 5V	1
32035	Cable, USB-C to USB-A, black, 1m	1

## Connection

With the patented LUMITRONIX Conext connection system, a wide variety of shapes can be created.

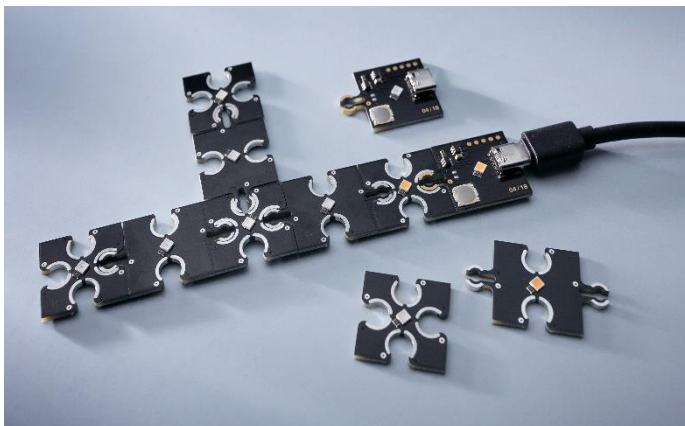

The ConextPlay male (31864) and female (31869) LED modules can be combined with each other in any desired way.

The electrical contact between the LED modules is established by simply plugging them into each other.

Power is supplied via the power supply module (31873), the USB-C cable (32035) and a power supply unit with USB-A connection with at least 5 volts.

The power supply unit is not included in the scope of delivery.

Up to 150 ConextPlay modules can be operated simultaneously via one power supply module.

Power supply module  
(31873)

Female module (31869)

Male module (31864)

## Operation

- Switching on/off: Short keystroke (<1 second) on the button of the power supply module
- Change brightness: Long keystroke (>1 second)
- Activate fade mode: Press the key for a long time (>1 second) when the device is switched off  
In fade mode the brightness slowly changes from light to dark and back again.
- Deactivate fade mode: Press the button for a long time (>1 second) when fade mode is activated.
