Twinkly Squares Extensions – App-controlled LED Panels with 64 RGB (16 million colors) Pixels. Black. 1 Extension Tiles, Work with Twinkly Squares Starter Kit. Indoor Smart Home Lighting Decoration

DESCRIPTION

Revolutionary Twinkly Squares smart LED wall panels completely redefine decorative lighting. Whether you want pixel-perfect artwork and GIFs for your home or office space, cool ambience and mood lighting, reactive gaming lights, or a unique night light for kids, Squares is a must-have display screen and lighting decoration. These decorative panels each feature 64 premium, app-controlled, addressable LEDs that were designed for extraordinary brightness and color quality in over 16 million colors. Physically combine this extension kit with a master panel and up to 12 additional panels (sold separately), and use the Twinkly App to sync larger groups of Squares and create huge displays of virtually endless preset and customizable effects, animations, GIFs, and pixel art on your walls and ceilings. For indoor use only.

FEATURES

Free the artist in you with sleek, smart LED wall panels Twinkly Squares and explore virtually unlimited ways to transform your space with pixel art, GIFs, widgets, colors, and animations

Enjoy setup in a matter of seconds via Bluetooth® and Wi-Fi, manage your lights with the free Twinkly app (iOS and Android), group multiple devices, set automated playlists, switch your lights on and off, apply timers, dim them and adjust their brightness, and much more

Unleash your creativity with endless preset effects and animations, create your own personalized ones using the FX Wizard on the Twinkly App, or virtually draw effects on your lights with your finger. Use your imagination and any shade, gradient, hue or tint of 16 million colors to create the ultimate decorative lighting

Add just the right accent and mood lighting to your indoor spaces; create LED walls to display stunning pixel art, artwork and GIFs; and take your gaming to the next level with immersive and reactive lighting

Watch your lights dance to Twinkly Music (sold separately), a smart USB-powered sound sensor that interprets ambient music and sounds in your space and applies synchronized colors and effects to your lights

· Indoor use only – IP 20

LONG DESCRIPTION

Revolutionary Twinkly Squares smart LED wall panels completely redefine decorative lighting. Whether you want pixel-perfect artwork and GIFs for your home or office space, cool ambience and mood lighting, reactive gaming lights, or a unique night light for kids, Squares is a must-have display screen and lighting decoration. These decorative panels each feature 64 premium, app-controlled, addressable LEDs that were designed for extraordinary brightness and color quality in over 16 million colors. Physically combine this extension kit with a master panel and up to 12 additional panels (sold separately), and use the Twinkly App to sync larger groups of Squares and create huge displays of virtually endless preset and customizable effects, animations, GIFs, and pixel art on your walls and ceilings. For indoor use only.

Twinkly lights are easy to configure via Bluetooth® and Wi-Fi and can be voice-controlled with voice assistants Amazon Alexa, Google Assistant, and Apple HomeKit. Once you've set up your lights, let the Twinkly App do the rest: it scans and maps each individual bulb, transforming your lights into a personalizable decorative display. You then get to apply virtually endless default effects and animations or create your own personalized ones.

For even more impressive decorations, combine your lights with Twinkly Music (sold separately), a USB device with a built-in microphone that interprets ambient sounds and music in your space and applies matching colors and effects to your lights. And for gamers, Twinkly seamlessly integrates with Razer Chroma™ RGB and OMEN Light Studio to take gaming to the next level with stunning lighting effects that react to gameplay.
