

TWINKLY PLUS

controller

TWPLUS-C-4P-23UK

REV. 02_EN-05.10.23

PRODUCT TITLE

Twinkly Plus Controller – 4-ports Smart Lights Controller for up to 1000 LEDs. Bluetooth, WiFi and Ethernet Connectivity. Power Supply with Plug Type G Included. IP65-certified, for Indoor and Outdoor Use.

PRODUCT DESCRIPTION

The Twinkly Plus controller brings professional-level lighting effects to your fingertips with a 4-port design supporting up to 1000 smart LEDs that shine with extraordinary brightness for personalized, stunning animations in over 16 million colors. Easily map lights using your smartphone camera and the app, instantly unlocking infinite color gradients, effects and grouping options that link tens of thousands of LEDs. A powerfully resistant, weatherproof design transforms any large outdoor or indoor setting into a creative custom wonderland season after season.

KEY PRODUCT FEATURES

Professional-grade Lighting: Easily create spectacular, pro-grade installations with this 4-port controller that supports up to 1000 addressable RGB-W LEDs and can be virtually grouped with other controllers for extended displays. Ethernet and wifi connectivity provide pro-level speed, convenience and stability .

Easy-to-use: Twinkly takes the guesswork out of pro-lighting with patented technology that uses your smartphone camera to map the position of each LED. Choose from presets, customize or design your own animations and set timers directly from the user-friendly app.

Ultra-durable Materials: Made to last: Just like Twinkly Plus lights, the controller is IP65 certified to be 100% weatherproof for superior durability.

Linkable Light Ecosystem: Group seamlessly multiple Twinkly Plus controllers, or sync with your existing Twinkly lights for unified displays of up to tens of thousands of LEDs. Use with Twinkly Music to orchestrate musical light shows. Currently available in the Plus family are Strings, Icicles, Curtains, Dots & S14.
